

### **Ability Awareness Week Contest**

In honor of Haddon Heights' **Ability Awareness Week**, all schools are inviting students to participate in a contest. There will be prizes for the 1<sup>st</sup> and 2<sup>nd</sup> place winners for each grade cluster. This year to recognize students' strengths and different learning styles, the contest will include a variety of ways for students to respond to this year's topic, "Turning Challenges into Opportunities". Winners will be invited to share their creative pieces at **Ability Awareness Night on March 27, 2013, at 6:30pm in the Seventh Avenue Multi-Purpose Room.**

Please select one of the choices below for your entry and submit your creative piece to your teacher by **March 20, 2013**. Teachers should send all entries to Mrs. Renner in the CST Office.

#### **The prompts are the following:**

**Kindergarten and First Grade:** How do you fix something that is hard to fix?

**Second and Third Grades:** How do you work through something that is difficult?

**Fourth through Sixth Grades:** How can you turn a challenge into an opportunity?

**Seventh through Twelfth Grades:** We are all met with challenges in life, sometimes daily. How do you turn those challenges into opportunities? Do you consider opportunity as something that comes to you, or something that you create for yourself? What do you do or can you do to build optimism in yourself and for those around you? Consider actions that you can use as a "restart button" to rejuvenate your outlook.

#### **Project Formats:**

A Poem

An Essay

An Illustration (including a title and a brief description)

A PowerPoint Presentation

A Poster

A Video

All entries must include your name, grade level, and school.
